

EV UNLIMITED RATE FACT SHEET

GO ELECTRIC WITH TRICO

EASY. INNOVATIVE. UNLIMITED.

WELCOME TO TRICO'S EV UNLIMITED RATE

Thank you for signing up for Trico's voluntary Electric Vehicle Unlimited (EV Unlimited) rate. This rate is designed to support the growing EV demand, and we recognize Trico Members with EVs have different needs. Members on this rate benefit from charging their EV in the convenience of their own home with the reliability and excellent service Trico provides.

MONTHLY RATE COSTS

	Co-op Owned Standard Single Charger		
	7.7 kW	11.5 kW	15.4 kW
Monthly Charge	\$64.00	\$69.00	\$71.00
Energy Charge			
On-Peak per kWh used	\$0.25	\$0.25	\$0.25
Off-peak per kWh used	No Charge	No Charge	No Charge

TRICO TRUSTED

EV chargers installed and powered by your cooperative means you have the reliable power of Trico to meet your unique EV needs.

CONVENIENT CHARGING

Trico takes the guess work out of the charger installation process, allowing for an easy setup and quality maintenance.

SUSTAINABLE ENERGY

Sustainable energy solutions are part of our mission. Participating in this rate and charging your EV at the right time reduces emissions.

FREQUENTLY ASKED QUESTIONS

1. WHEN CAN I CHARGE UNLIMITED?

You can charge unlimited at your fixed monthly charging cost between the hours of 9:00 a.m. to 4:00 p.m., and 10:00 p.m. to 6:00 a.m. If you charge outside of these hours, an energy charge of \$0.25 per kWh will apply.

2. IS THIS REALLY UNLIMITED?

Yes! As long as you are charging within the specified timeframes, you can charge your EV as much as you want, all month long, year-round.

3. WHO OWNS THE CHARGER?

Trico installs and owns the charger and all associated equipment.

4. CAN I BUYOUT THE CHARGER FROM TRICO?

No. Should you choose to no longer participate in the EV Unlimited Rate, Trico will retain ownership of the charger and will uninstall it for you.

5. WHAT HAPPENS IF THE CHARGER BREAKS?

One of Trico's core values is service - we will provide maintenance and covered repairs should issues arise with a charger.

6. WHAT CAN I EXPECT FROM THE INSTALLATION PROCESS?

A Trico electrician will contact you within seven business days after your application is approved. They will do an initial inspection at your home to customize the installation to your specific needs, and will advise you every step of the way.

7. HOW DO YOU KNOW WHEN I AM CHARGING AND HOW MUCH ENERGY I USE?

Metering is built into the charger and that information flows directly to Trico. This is how we are able to track your kWh usage as well as what times you are using the charger. No external metering is required.

8. WHY IS IT IMPORTANT TO CHARGE DURING THESE HOURS?

By encouraging EV charging during off-peak hours, we can limit the overall energy costs for all Trico Members, reduce stress on our grid, and improve reliability. Charging during off-peak hours also helps us reduce reliance on fossil fuels to meet energy demand, therefore lowering emissions. All of this helps meet our mission of providing sustainable energy solutions to our Members.
